

## ADLER Aquafix Metallic

**91202**

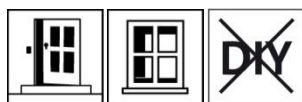

Additive to realize brilliant metallic shades for the coating of windows and front doors for **industrial and professional** use

### PRODUCT DESCRIPTION

#### General

Additive for the colorless final coat ADLER Aquawood Protect to obtain brilliant metallic shades for the coating of windows and front doors.

#### Application area

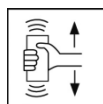

- For hard-wearing surfaces of front doors and windows with brilliant metallic-effect.
- Use after complete overnight drying on opaque surfaces varnished with Aquawood Protor-Finish D 5173 or ADLER Acryl-Spritzlack Q10 M 4320 in the desired colour shade.
- The additive must be used in combination with the colorless final coat Aquawood Protect 53215.

Please observe the relative technical data sheets of the products.

### PROCESSING

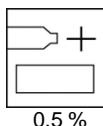

#### Instructions for use

- Please stir the product well before use.
- Carefully stir ADLER Aquafix Metallic 91202 into the non-hardened and undiluted paint Aquawood Protect 53215; incorporate ADLER Aqua-PUR-Härter 82220 only afterwards.
- For processing observe the technical data sheet of Aquawood Protect 53215.
- The best results on brilliant metallic effects can be obtained with thin film layers of approx. 125 µm wet film.
- Especially important is the overnight drying (approx. 15 hours) of the topcoats Aquawood Protor-Finish D or ADLER Acryl-Spritzlack Q10 M before recoating.

Please observe the relative technical data sheets of the products.

#### Quantity to be added

100 parts by weight of Aquawood Protect 53215

0,5 parts by weight of ADLER Aquafix Metallic 91202

The hardener quantity of 7 parts ADLER Aqua-PUR-Härter 82220 will be added only afterwards.

**Drying times**

(at 23 °C and 50 % rel. humidity)

The addition of ADLER Aquafix Metallic 91202 does not influence the drying of Aquawood Protect.

**Cleaning the working equipment**

With water immediately after use.

Remove flashed-off coat residues using ADLER Aqua-Cleaner 80080 (1:1 diluted with water).

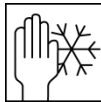

**ORDERING INFORMATION**

**Size of trading unit**

400 g

**FURTHER DETAILS**

**Durability / storage**

At least 1 year in the original sealed containers.

Cool, but frost-free.

**Safety-relevant information**

Please follow the associated safety data sheet! The latest version can be retrieved from the Internet at [www.adler-lacke.com](http://www.adler-lacke.com).
