## Technical data sheet

### Bluefin Unistar Bühnenfarbe

3190

Water-based pigment paint for stage construction for industrial, professional and DIY use

|                 | PRODUCT DESCRIPTION   |
|-----------------|---|
| Product numbers | 3190082123  |
| General         | Water-based pigment paint that can be applied as a one- or two-component product; specially formulated for stage coating with a dull matt finish and extremely low reflection. The product has excellent filling power and dries very quickly; very good chemical and mechanical resistance. The product is formulated without the addition of solvents and plasticisers. |

## Special properties and standards

#### green-Label

ADLER green-Label products are objectively tested and certified according to three categories: Environment, Health & Safety, and Durability. Only products that score positively in all these areas are awarded the green sustainability label.

#### Declared in baubook

Product has been declared and validated

#### • ÖNORM A 1605-12 (furniture surfaces)

Resistance to chemical reactions:

for 1K processing: 1-B for 2K processing: 1-B1

Response to abrasion: 2-D (≥ 50 U) Response to scratches: 4-D (≥ 1.0 N)

#### DIN 68861 (furniture surfaces)

Part 1: Response to chemical stress: 1 B

Part 2: Response to Abrasion: 2 D (> 50 to  $\leq$ 150 U) Part 4: Response to scratches: 4 D (> 1,0 to  $\leq$  1,5 N)

#### Cradle to Cradle Certified® Silver

Cradle to Cradle Certified® is the global standard for products that are safe, circular and responsibly made.

#### DIN 53160-1 and DIN 53160-2

Perspiration and saliva-proof properties

#### ÖNORM EN 71-3

#### Confirmed by an external test certificate.

Safety of toys; migration of certain elements (free of heavy metals).

Plasticiser-free

#### ELF: Emission and solvent-free according to VdL Guideline 01

#### French ordinance DEVL1104875A

Marking of construction coating products for their emission of volatile pollutants: A+

#### Application area

Coating of wall, floor and ceiling elements for interior stage construction.

**One-component:** For the coating of furniture surfaces exposed to normal levels of stress (such as bedroom suite and living room furniture, application areas III to IV according to ÖNORM A 1610-12).

**Two-component:** For the coating of furniture surfaces exposed to high levels of stress (such as kitchen and bathroom furniture, tabletops, etc., application areas II – IV according to ÖNORM A 1610-12).

For hardly inflammable or flame-retardant coating systems in conjunction with a flame-retardant substrate.

#### **PROCESSING**

#### **Processing instructions**

- Please stir the product before use.
- The temperature of the product and object, and the room temperature must be at least + 15 °C.
- When coating interior doors, it must be ensured that only sealing profiles compatible with acrylic paints are used.
- Any change in the processing sequence, environmental conditions, nonobservance of instructions or the use of products not listed may have an unfavourable effect on the result.
- Please follow our ARL 150 Working guidelines for water-based furniture coatings.

#### Blending ratio

100 Gew.-Teil(e) Bluefin Unistar Bühnenfarbe (3190) 4 Gew.-Teil(e) Aqua-Crosslinker 8481 (8481000210)

Aqua-Crosslinker 8481 (8481000210) must be carefully worked into the product by stirring before processing. We recommend waiting approx. 10 minutes before starting work.

#### Pot life

72 hour(s) at approx. 20 °C

Mixed material can be processed for a further 72 hour(s), but must be mixed 1:1 with freshly hardened material.

A further extension of the pot life is not possible.

Increased temperatures reduce the pot life.

#### Application technique

|   | Airless      | Airless air-supported (Airmix®,<br>Aircoat, etc.) | Cup<br>gun |
|---|--------------|---|------------|
| Spraying nozzle Ø<br>(mm)               |              | 0,23 - 0,33                                       | 1,8 - 2,0  |
| Spraying pressure<br>(bar)              | 100 -<br>120 | 60 - 90   | 2 - 3      |
| Vaporizer Air (bar)                     | -            | 1-2   | -          |
| Applied quantity per application (g/m²) | ·            | 80 - 120  |            |
| Total quantity applied (g/m²)           |              | max. 450  |            |

Rolling or brushing (soft flat brush).

The product is ready to use.

The shape and surface condition of the workpiece as well as the type of application influence the actual consumption. Accurate values for consumption must be obtained by applying trial coats in advance.

#### Drying times

(at 23 °C and 50 % rel. humidity)

| Sandable and paintable    | 2 hour(s)  |
|---------------------------|------------|
| Manipulable and stackable | 12 hour(s) |

Lower temperatures and/or high level of atmospheric humidity can increase the drying time.

The figures given above are reference values. The drying time depends on the type of substrate, coat thickness, temperature, air exchange and relative atmospheric humidity.

# Cleaning the working equipment

With water immediately after use.

To remove dried paint residues we recommend using Aqua-Cleaner (8004) (diluted 1:1 with water).

Conveyor belts and material lines: Clean-Smart B&P (8015000210) Heavily soiled material lines: Clean-Smart Gel (8060000210)

|                       | SUBSTRATE   |
|-----------------------|---|
| Type of substrate     | Hard and softwood (solid wood-, veneer-, (coated) chipboard-, wood fibre boards)  |
| Substrate property    | The substrate must be dry, clean, capable of holding the paint, free from separating substances such as grease, wax, silicone, resin etc. and free from wood dust, as well as tested for suitability for coating. |
| Substrate preparation | Hardwoods: Sand and clean with 150 - 180 grit<br>Softwoods: Sand and clean wirh 100 - 150 grit  |
|                       | Old coatings:  Sand intact old coatings with grit size 220 and clean.   |

|                      | Sand intact old coatings with grit size 220 and clean.  |
|----------------------|---|
|                      | COATING SYSTEM  |
| Primer coat          | 1 x Bluefin Unistar Bühnenfarbe (3190) <b>Old coatings:</b>   |
|                      | The compatibility of the coating must be checked on intact old coatings.  |
| Intermediate sanding | Grit size 220 – 280   |
|                      | Sanding straight through must be avoided, as this may lead to differences in the grain accentuation, which are further increased by yellowing with aging. |
|                      | Remove sanding dust.  |

**Topcoat** 1 x Bluefin Unistar Bühnenfarbe (3190)

# CLEANING AND MAINTENANCE Cleaning and Maintenance Cleaning with Clean-Möbelreiniger (7202) an care with Clean-Möbelpflege Plus (7222).

|                          | ORDERING INFORMATION   |
|--------------------------|--|
| Size of trading unit     | 22 kg, 120 kg  |
| Supplementary products   | Aqua-Cleaner (8004) Aqua-Crosslinker 8481 (8481) Clean-Möbelpflege Plus (7222) Clean-Möbelreiniger (7202) Clean-Smart B&P (8015000210) Clean-Smart Gel (8060000210) Please refer to the corresponding technical data sheets of the products. |
|                          | FURTHER DETAILS  |
| Durability / storage     | Min. 9 month(s) in the original sealed containers.  Make sure the product is protected against moisture, direct sunlight, frost and high temperatures (above 30 °C).   |
| Technical specifications | Delivery viscosity: 45 - 50 seconds according to DIN 53211<br>(6mm measuring cup, 20 °C)   |
| Safety information       | The inhalation of paint aerosols during spray application must generally be avoided. This is ensured by the proper use of a respirator (combination filter A2/P2).   |
|                          | Further information on the subject of safety during transport, storage and handling as well as disposal can be found in the relevant safety data sheet. The current version can be accessed on the Internet at <b>www.adler-lacke.com</b> .  |
