.....

## RESPONSIBILITIES

- You are co-responsible for the successful implementation of Microsoft Dynamics 365 in various areas such as (finance, sales, logistics purchasing ...) in our subsidiaries in CZ /SK as well as PL and work together with the project team at ADLER headquarters and external project partners.
- You actively take care of the integration of new business processes into the ERP system, taking into account the ADLER IT landscape.
- You will work on the system configuration of D365, develop customizations and create solutions in the field of interface programming.
- You manage our networks and client devices, including system software, application software and push their automation.
- You protect data, software and hardware by planning and implementing network security measures.
- You act first and second level support for ERP issues for the CEE subsidiaries in CZ / SK and PL in coordination with the local service provider and the head office IT team.

## YOUR QUALIFICATIONS

- You have a completed education (UNI, FH, HTL) in the field of IT & business.
- Several years of professional experience with ERP systems, ideally with Microsoft Dynamics 365 F&O.
- Profound knowledge in the field of system administration, network technology (TCP / IP networks incl. VPN) and virtualization.
- Knowledge of object-oriented programming (e.g. X++, C# ...) and SQL is an advantage.
- Personally, your work-style is target-oriented, structured and if necessary you are also a team player.
- Foreign languages (Czech, Slovak, Polish, ...) are advantageous.
- Very good German and English skills are a basic requirement.

## WE OFFER

- An innovative, independent, traditional family business with a clear commitment to Tyrol as a business location with an international orientation
- Extensive training and further education opportunities
- Attractive and collegial working environment
- Voluntary social benefits: flexible working hours, 4,5-days a week, company cafeteria, company sports club, fitness center and much more.

The minimum salary for this position is € 49,804.58 per year. An overpayment in line with the market depending on qualifications and professional experience is foreseen.

## Sounds like an exciting job? It is!

We are looking forward to your application including photo, CV, copies of certificates, references.
